

DAILY PROGRESS JOURNAL

GIVE YOURSELF A BOOST!

MARY KAY CLINICAL SOLUTIONS® BOOSTERS

NEW JOURNEY, NEW GOALS.

Welcome to a new skin care journey! We hope you're as excited as we are. Since *Mary Kay Clinical Solutions** boosters do not need an acclimation process (like *Mary Kay Clinical Solutions** Retinol 0.5), they're ready to use and were designed to easily be added into your existing skin care routine.

DOCUMENT YOUR JOURNEY.

Consider jotting down daily observations while using the boosters, paying attention to the following when noting observations.

- Add the date and time to each entry.
- Identify the booster(s) you are using and when you are applying it/them.
- Note how many drops you are using.
- Describe how the product(s) make your skin look and feel after each use.
- Note visible changes in your skin over time.

SNAP PICS.

You can take a picture before you start and another when you have completed the bottle(s).

- Photograph your full face the same way both times.
- Have a relaxed facial expression.
- Ensure you have good, consistent lighting.

PREPARE TO SHARE.

Use this document to share your journey with your customers – **after** the products launch in the spring quarter!

HELLO, GORGEOUS.

—— THIS MONTH —

YOU GLOW, GIRL!

Su	M	Tu	W	Th	F	Sa	What other serums are you using? How does your skin feel this week?
