What makes it great

Mint Bliss Energizing Lotion contains key ingredients to moisturize and create a cooling sensation that help tired feet and legs feel revived. With a smooth, light minty fragrance, you'll get relief without overwhelming odor.

ingredients include...

Menthol – counter-irritant, creates a cooling sensation and mild relief from discomfort. Naturally found in the oils of the Mint plant.

Rosmarinus Officinalis Leaf Extract – antioxidant, soothing and calming agent. Extracted from the leaves of the Rosemary plant.

Salix Alba Bark Extract – a toning agent that provides mild astringency. Extracted from the bark of the Willow tree.

Betula Alba Bark Extract – conditioner that improves the appearance of skin. Extracted from the bark of the White Birch Tree.

Glycerin – a fantastic moisturizer/hydrator that helps condition and smooth the skin by adding, attracting, or retaining moisture.

Note: Mint Bliss Lotion provides a cooling sensation and temporary relief from dry skin; it is not intended to diagnose, treat, cure, or prevent any disease.

Cool Comfort

If you love the cooling sensation, consider how nice Mint Bliss can feel...

- During a foot-rub after a long day of work on your feet
- During a massage of tired or sore back muscles
- When you're sweating through the occasional hot flash
- As the perfect final step in a pedicure
- As a soothing rub for child's growing pains
- Applied to chest when sick, giving off a menthol aroma
- On the back of the neck when outside in hot weather
- Applied through sheer hosiery when you're on the go

Love to indulge?

If you love taking a little time to treat yourself now and then, you might like to try...

TimeWise Repair® Lifting Bio-Cellulose Mask

Indulge® Soothing Eye Gel

ClearProof® Deep-Cleansing Charcoal Mask

Ask me about them at your next Beauty Appointment!
